

Beach-day number sense

12 min: questions 1-8 | 5 min: questions 9-10 | 3 min: check and reflect

Name: _____ Date: _____

01 ADD & SUBTRACT

$248 + 135 = \underline{\quad}$

02 ADD & SUBTRACT

$602 - 278 = \underline{\quad}$

03 PLACE VALUE

What is the value of the 7 in 473?

04 ROUNDING

Round 368 to the nearest ten.

05 ARRAYS

Draw 4 rows of 3 dots. How many dots are there?

06 DIVISION

Share 20 shells equally among 5 friends. How many does each get?

07 FRACTIONS

A snack is cut into 4 equal pieces. Nini eats 1 piece. What fraction is left?

08 ELAPSED TIME

Practice starts at 3:15 p.m. and lasts 30 minutes. When does it end?

09 WORD PROBLEMS

Nini finds 3 bags of 5 shells. She gives away 4 shells. How many remain?

10 MULTIPLICATION

Kai says $6 \times 4 = 6 + 4$. Is he right? Use a drawing or words to explain.

First try: ____ / 10 Circle a tricky question. Copy its skill name:

My practice skill: _____

Day 1: check and learn

Beach-day number sense

01 / Add & subtract

383

Regroup 13 ones as 1 ten and 3 ones. Then add the tens and hundreds.

02 / Add & subtract

324

Regroup across the zero: 5 hundreds, 9 tens and 12 ones.

03 / Place value

70

The 7 is in the tens place.

04 / Rounding

370

The ones digit is 8, so round up.

05 / Arrays

12 dots

$4 \times 3 = 12$. Each of the 4 rows has 3 dots.

06 / Division

4 shells

20 divided by 5 = 4.

07 / Fractions

$\frac{3}{4}$

Three of the four equal pieces remain.

08 / Elapsed time

3:45 p.m.

Add 30 minutes to 3:15 p.m.

09 / Word problems

11 shells

$3 \times 5 = 15$; $15 - 4 = 11$.

10 / Multiplication

No. $6 \times 4 = 24$; $6 + 4 = 10$.

Multiplication counts 6 groups of 4. Addition here combines just 6 and 4.

Match the skill label to the practice guide at the end of this PDF.

Find your next practice step

Circle a tricky question. Match its skill label below. Ask an adult to help you choose.

Find games at LearnWithNini.com. Game names work from paper; no clicking needed. "Related basics" means the game reviews a foundation, not the exact advanced problem.

ADD & SUBTRACT

Practice on paper

Redo the calculation by place value. Check subtraction with addition. Use a number line or place-value chart if needed.

ROUNDING

Place Value Challenge

Choose Rounding Challenge: nearest 10, 100 or 1,000. For larger places, mark neighboring values on paper.

DIVISION

Division Dash - related basics

Practice facts and remainders. Two-digit divisors and longer written calculations need paper review.

ELAPSED TIME

Time Match - Elapsed Time

Find start, end or elapsed time. For longer intervals, also draw jumps on a paper timeline.

PLACE VALUE

Place Value Challenge

Choose Digit Detective or Build the Number. For higher places beyond the game, use a paper place-value chart.

ARRAYS

Multiplication Sprint

Choose Arrays & Equal Groups. Draw rows, count the objects and write repeated addition.

FRACTIONS

Fraction & Decimal Lab

Choose Build It, Equivalent Fractions or Compare Fractions. Use equal-part models to explain your answer.

WORD PROBLEMS

Math Detective - related practice

Choose Solve the Clue or Two-Step Mysteries. These build story reasoning; use paper for larger-number calculations.

Offline is enough: redo one missed problem and explain your method.

Find your next practice step

Circle a tricky question. Match its skill label below. Ask an adult to help you choose.

Find games at LearnWithNini.com. Game names work from paper; no clicking needed. "Related basics" means the game reviews a foundation, not the exact advanced problem.

MULTIPLICATION

Multiplication Sprint - related basics

Power Facts and Break Apart build fact fluency. Multi-digit written multiplication needs paper practice.

LENGTH

Length Lab - related practice

Practices length with inches, feet and yards. For this pack's centimeter problems, use a metric ruler on paper.

AREA & PERIMETER

Geometry Builder

Choose Area Builder or Perimeter Builder for whole-number rectangles. Show your calculation on paper first.

CAPACITY & MASS

Practice on paper

Underline the units. Draw containers or a scale, then use the answer key to check your calculation.

COMPARE NUMBERS

Number Battle - related basics

Greater Number Battle compares numbers up to 9,999. For larger numbers, compare digits by place on paper.

MONEY

Money Match - related basics

Choose Change Challenge for money sense. Use the worked key on paper for decimal calculations.

SHAPES

Geometry Builder - Shape Builder

Practice sides and shape names. For shape categories, compare their properties together on paper.

Offline is enough: redo one missed problem and explain your method.
